

3

SPRAY HEAD FUNCTIONS

1. Main sprayer located directly underneath rear axle (Allows **ONE PASS** grass cutting, line painting process)

2. Hydraulic side arm sprayer

3. Hydraulic corner arc spray arm

- Eliminates all traditional “tools of the trade”
- **ONE PASS** grass cut, line painting process. Grass conditions no longer restrict line painting operations
- **15 minutes** to paint a typical full size soccer field with **one operator**
- Organized field files can be reviewed anytime to check marking dimensions, marking placement, etc.
